Education

Macquarie University

Bachelor of Information Technology, Major in Artificial Intelligence

Jul 2023 – Jul 2026

North Ryde, NSW

Experience

Robotic Marketer

Feb 2026 – Jul 2026

Software Engineer

Sydney, NSW

- Owned the **Contacts** module of an interconnected CRM for an AI marketing platform in a **6-person Agile team**, working across the stack from **Node.js** REST APIs to the **React/TypeScript** front end.
- Shipped full **CRUD**, bulk actions, and soft delete with restore, plus **CSV** import/export pipelines with live preview, improving data workflows for B2B, B2C, eCommerce, and Education clients.
- Architected auto-linking between Contacts, Accounts, and Opportunities so lead conversion creates linked records in one step, with every action written to a shared activity timeline for audit traceability.
- Built persona-driven contact classification and buying-group tracking to power Account-Based Marketing, collaborating through code reviews and **Git** version control.

Renaissance Educare

Apr 2023 – Jun 2023

Digital Marketing Intern

India

- Managed analytics dashboards and social platforms, increasing audience engagement by **40%** over 6 months through data-informed strategy; ran competitor analysis and email workflows with measurable conversion outcomes. Awarded **Intern of the Month**.

7-Eleven & KFC Australia

Nov 2023 – Present

Sole Operator & Crew Trainer (concurrent with full-time study)

Sydney, NSW

- Operate a 7-Eleven store independently on solo shifts covering POS, cash handling, inventory, and compliance; selected as KFC Crew Trainer to onboard new team members and author training documentation.

Projects

Foundr – Full-Stack Finance-Tracking Web App | [Live](#) | [GitHub](#)

2026

- Designed, built, and shipped a live finance-tracking application for solo founders that converts manual financial records into clear operating metrics including **burn rate**, **runway**, **ROI**, and **margins**.
- Architected a decoupled full-stack system: a **TypeScript**/Lit frontend deployed on **Vercel** and an independent **Node.js/Express** API on **Render**, backed by **MongoDB Atlas** via Mongoose.
- Implemented rate-limited **REST** endpoints, GSAP/ScrollTrigger animation, and separate **Vite** build configs to control feature exposure; codebase is **95% TypeScript**.

Personal Portfolio Website | [Live](#) | [GitHub](#)

2025 – Present

- Built and shipped a production portfolio site in **React**, **TypeScript**, **GSAP**, and **Firebase**, featuring scroll-driven animation and a live sign-the-wall guestbook with real-time persistence for concurrent visitors.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Frameworks & Libraries: React, React Native, Node.js, Express.js, REST APIs, Lit, Tailwind CSS, GSAP, Pandas, NumPy, Matplotlib

Databases: MySQL, MongoDB, MongoDB Atlas, Mongoose, Firebase, schema design, query optimisation

Cloud, DevOps & AI: AWS, Amazon Bedrock, Vercel, Render, Vite, Git, GitHub, CI/CD, generative AI integration, prompt engineering, LangSmith

Practices & Tools: Agile/Scrum, SDLC, code review, unit & integration testing, Figma, UX research, Jupyter Notebook, Microsoft 365

Certifications & Achievements

- AWS Cloud Practitioner Essentials** (2026); **Amazon Bedrock: Getting Started**, AWS (2026); **Quickstart: LangSmith**, LangChain Academy (2026); **AI Fluency: Framework & Foundations** and **Claude 101**, Anthropic (2026).
- Technology Job Simulations**, Deloitte Australia and Citi (Forage, 2026); **Highest Achievement Award**, COMP3760 Enterprise Systems Integration; **Student Representative**, COMP1010, Macquarie University.
